Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

This application, 10/041,109, has been examined. Claims 1-91 are pending.

Drawings

The drawings are objected to because Figures 1-7 are unclear and overall, difficult to read. Also reference the attached Notice Of Draftperson's Drawing Review. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Objections

1. Claims 1-91 are objected to because of the following informalities: Pursuant to claims 1, 31, 61, and 91` for all instances of *LBIST/circuit* delete the "I" and insert

Art Unit: 2825

appropriate and applicable wording (e.g. *and*, *or*) that defines the claim boundaries. Additionally, it is unclear what the "predetermined protocols" relate to and what they consist of. Pursuant to claim 31, at line 11, before "comparing", insert - -means for- -. Pursuant to claim 61, at line 18, change "output" to - -result--. Appropriate correction is required.

Allowable Subject Matter

2. Claims 1-91 contain allowable subject matter.
3. The following is a statement of reasons for the indication of allowable subject matter: In a method for resolving timing violations introduced by a LBIST sub-circuit, the prior art does not disclose or suggest generating a second path-list wherein the timing violations introduced by the LBIST sub-circuit are resolved.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Please reference the PTO-892 for a complete listing.
